

## **PRESSPAN**

PRESSPAN is a first quality pressed cartoon, made with only high performance cellulose fiber.

### **FIELD OF APPLICATION**

PRESSPAN is used in transformers, condensers, switches, coils, etc...

### **PHYSICAL CHARACTERISTICS**

### **ROLLS (PSP 3040)**

Density (grs/cm <sup>3</sup> ) .....	1.10-1.25
Humidity in supplied state (%) .....	6-10
Ashes (%).....	1 max
Tensile Strength (N/mm <sup>2</sup> )	
Longitudinal .....	70 min.
Transverse .....	35 min.
Thermal Class.....	"A" (105°C)
Dielectric strength (Kv/mm) .....	8 min.

<b>THICKNESS (mm)</b>	<b>WEIGHT (grs x m<sup>2</sup>)</b>
0.1	115
0.15	170
0.20	235
0.25	270
0.35	400

### **SUPPLIED IN**

Coils of 10 and 40 Kg approx. (width 1000 mm). If required can be supplied in heaviest coils, and cut in rolls.
